Former Inspector Brooks Sure Mrs. Rosenstein's Garment Was Only Knee Length.

Former Inspector Nicholas Brooks to-day told on the witness stand the details of the sensational raid he led at the bachelor quarters of William Kass, in order to obtain evidence against Mrs. Bertha Rosenstein, whose husband, Adolph, formerly a bookmaker, is suing for divorce.

Inspector Brooks qualified as an expert on petticoats. "Mrs. Rosenstein had on a light blue alk underskirt," said the Inspector. "Are you sure it was not a dress

skirt?" asked Abraham Levy. "Oh, I know the difference," replied the Inspector, "I know an underskipt when I see kt. It was short, reaching about to the knees."

At this point Mr. Levy produced a sky blue garment. It had a bodice and frills on the top and bottom. Shows a Garment in Court.

"Is this the underskirt?" asked Mr. Levy. "I den't think so," said Brooks. "The one I saw didn't have any frills on the bottom."
"If a domen responsible persons swore that this was the garment Mrs. Roseenstein wore would you still swear it was not the one you saw?"

"I would."

It was evident that the garment Mr.
Levy produced was frill length and not
knee length, as the inspector had deseribed. "Did Mrs. Rosenstein have her shoes n?" asked Mr. Levy. "If don't know." "But you said her skirt came only

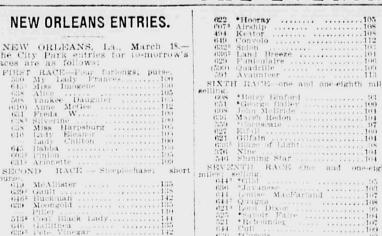

to the knees."
"When I saw this woman nude from
the waist up. I didn't think it necessary
to look at her feet," said the Inspector.

He-"I venture to ask, madam, if you would endeavor to spare me something for the Home for Broken Down Washerwomen?"

Anty Drudge-"Certainly. I'll donate a box of Fels-Naptha soap. Tell them to use it according to directions, and they will still be able to do washing, because the Fels-Naptha way banishes all the back breaking and hard rubbing of wash day; and cuts washday work in half."

Why do so many women who do their own work grow old before their time?

The weekly washing, they will tell you, is responsible for their breaking down. And they tell the absolute truth if they wash in the old-fashioned way.

Continual rubbing on the washboard is so bad on the back.

And standing over steaming suds paves the way for colds.

But the Fels-Naptha way is just as different from the old way of washing as Fels-Naptha is different from all other soaps.

Only cool or lukewarm water needed, in winter or summer, and very little rubbing required.

In a nutshell Fels-Naptha does most of the work itself without human assistance.

In using Fels-Naptha, follow the easy directions printed on the red and green
